

Drawable

Transformable

AnimatedSprite

```
graph BT; AnimatedSprite --> Drawable; AnimatedSprite --> Transformable;
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'AnimatedSprite'. Two arrows originate from the top of this box and point upwards to two separate boxes at the top: 'Drawable' on the left and 'Transformable' on the right. This indicates that 'AnimatedSprite' inherits from both 'Drawable' and 'Transformable'.
